

H81 LOGISTIC

It is the integrated logistics and land transport company with over 100 carriers, specialized in the management of contract work orders on the territory of northern Italy within 24 or 36 hours and on request throughout Europe with dedicated service

Thanks to a modern technological infrastructure we use the "One To One" policy for the delivery of each package; developed the management from 1 to 4 load cycles with almost 2500 deliveries carried out daily

INTEGRATED LOGISTICS

Thanks to an efficient business model and constant innovation, the HUB we manage reflect the best policies where the main focus is on a highly efficient service

BUSINESS MODEL B2B

DEFINITION "The business model describes the logics according to an organization creates, distributes and collects value; that is the set of organizational and strategic solutions that, through customers, gains competitive advantage. The meeting between the services offered and the right price are the fundamental prerequisite for commercial agreements "

MANAGEMENT OF THE COMMISSOR

The market of the third millennium is pushing more and more the industry towards flexible and lean productive models and that's why thanks to a constant innovation, HBT Logistic follows the new market assets

CAPILLARY NET 4 punto 0

The orders are managed centrally through a network of servers that are able to manage and monitor all the phases of the logistics process such as inventory analysis, withdrawals and deliveries

SAFE TRANSPORTATION

Thanks to exclusive rates, you can avail of the best service for the Lombardy region and among the best for the national team, reducing shipping costs thanks to the optimization of operational processes

SERVIZI & KNOW HOW

We are able to co-ordinate and manage all goods management operations with competence, guaranteeing direct relations with customers or their interlocutors; from the production chain to the automated one, from the supplier of the materials destined to the production, to the company producing the finished product, to the contractors guaranteeing the management of orders in the North of Italy within 24 or 36 hours and on request throughout Europe with dedicated service

▲ TRANSPORT TO THE POINT REQUIRED

We interface between buyer and supplier or between buyer, supplier and supplier logistics manager where we are contacted by call or digital request for collection with shipping conditions, timing and points of interest to outline the route

Thanks to the internal EMEA division that manages the flows and workloads, distributing the management of the orders to optimize shipping costs and timing. Generally we can recalculate the routes for receiving the order between 90 and 120 minutes after the withdrawal request

▲ INTEGRATED LOGISTICS

THE MEANING Integrated logistics is expanded and branches into all the company's functions, including the infrastructures, the procedures that manage the flows affecting the operations, starting with the procurement of raw materials and ending with the delivery of the finished product

HOW WE OPERATE Thanks to the organization created by a state-of-the-art technological infrastructure, we are able to optimize packaging costs, delivery times and calibrate activities on the basis of strategic levers

All this is possible thanks to an information and monitoring system that allows an advanced control of every phase of the company processes, from the management of the orders to the distribution

SHIPMENTS ALL OVER THE WORLD

YOUR GOODS, EVERYWHERE The shipper is the subject to which companies turn to get a fundamental help when they have to face a complex expedition

HBT Logistic joins the customer and helps him choose the most suitable means of transport from time to time and through the regulations in force we ship worldwide, ensuring that the goods arrive at their destination within the established time and in an intact way

DEEPENING

AMBIENTE DIGITALE

DIGITAL ENVIRONMENT We use software, as a web application, developed Ad Hoc to allow tracking and delivery notice directly to the customer where HBT Logistic also interfaces as a contractor, with the customer's logistics HUB

COLD RENTAL

DEFINITION A rental contract is identified between two subjects, public or private, concerning the use of an asset without any operator assigned to the use

We can rent according to your needs from the minivan to an articulated vehicle, from a few hours to extended periods of time

We provide insurance contract, refueling and all the equipment for the correct fixing of the load to the whole of the rented property

CUSTOMS CONTROL OFFICE

We put at your disposal a VAT identification number, essential for customs clearance and we avoid the whole series of bureaucratic operations necessary to import goods in Italy and to the European Union

Your shipment is also cleared at the time of entry into the EU and usually this operation is carried out in the country of destination of the goods; managing the whole process by accurately following all the practices needed for EU customs clearance

Our competent staff follows the best customs practices for a safe and efficient service

MANAGEMENT OF THE COMMISSOR

From the logistical point of view, when we receive the order to collect a contract, we begin the activities to organize the materials necessary for packaging, the European marking, the labeling and the generation of a new waybill for tracking the shipment

THE SKILLS FOR A GUARANTEE

Over the years, we have acquired such know-how that we have set up a digital environment to process workloads to a minimum, reducing error tolerances to a minimum, allocating orders for faster and more efficient distribution with a feedback value that they are appreciated from the short to the long run
